

Primerica Life Insurance Company of Canada

Life Insurance Capital Adequacy Test (LICAT) Ratio

December 31, 2024

LICAT Ratio Public Disclosure Summary

The Office of the Superintendent of Financial Institutions (OSFI) requires federally-regulated life insurance companies and insurance holding companies to maintain capital ratios in accordance with regulatory Capital Guidelines. The Capital Guidelines define and establish criteria and limits for determining an insurer's Capital Resources and Capital Requirements. Primerica Life Insurance Company of Canada ("PLICC") is required to maintain, at minimum, a Core Ratio of 55% and a Total Ratio of 90%. OSFI has further established supervisory target levels of 70% for Core and 100% for Total capital. In addition, OSFI requires companies to set internal target levels of capital sufficient to provide for all risks of the insurer, including risks specified in OSFI's Capital Guidelines. As at December 31, 2024 and December 31, 2023, PLICC has satisfied regulatory requirements.

Definition of terms can be found in Guideline A : [Life Insurance Capital Adequacy Test](#)

(all amounts below are in thousands of dollars, except percentages)

	<u>31-Dec-24</u>	<u>31-Dec-23</u>	<u>Change - %</u>

Calculations

Total LICAT Ratio	$((A+B+C)/D)*100$
Core LICAT Ratio	$((A+70%C)/D)*100$

Qualitative Analysis of Solvency Ratio (Period over Period)

Total Capital Resources increased 5.3% due to normal growth in earnings. The Total and Core LICAT Ratios increased over the prior year mainly due to a combination of earnings during the period and the impact of changes in the interest rate environment.
